

# Chapter 14

## General healing

### Quantum Healing

- All quantum effects to be amplified by the vibration of:

Fibonacci Sequence:  $F_{(n+2)} = F_{(n+1)} + F_{(n)}$   $-\infty \leftrightarrow +\infty$  3 dimensions Blue  
B,F Major Octaves C2,3,4,5 and 6. Starting (n) = 2 and (n+1) = 3

	Crystal: Peridot					Plant: Sage Clary

- Focus tachyon energy into all levels of the body and its surrounding energy fields to ensure perfect connection with Universal Intelligence.
- Ensure all interactions between the body's Subtle Organising Energy Fields (SOEFs) and tachyon energy lead to the harmonisation and evolution of the SOEF rather than destabilisation and decay.
- Use Zero Point Field energy focused through tachyon particles to revitalise all foods and drinks consumed to their optimum energetic state, overriding the effects of cooking, processing, storage, freezing, genetical modification, pesticides and fertilizers.
- Remove all interference from consciousness that is blocking the flow of tachyon energy into the body and its various energy fields.
- Ensure all bifurcation points within the body's Subtle Organising Energy Fields (i.e. the moment when they temporarily collapse and reform) have sufficient tachyon energy available to re-establish themselves at the optimum level of vitality and the highest level of order.
- Re-iterate to infinity the natural fractal progressions set at conception where they have moved out of perfect alignment.

- Assess the ‘pilot wave’ (the vibrational frequency we put out ahead of us that attracts people, events and situations into our lives). Cleanse the wave of any negative energies and emotions.

### General healing

- Please control ego, to help awareness of the connection that exists between us all, the power of One and the illusion of separation.

- Delete all stress receptors on the meridians and chakras and restore optimum function and balance.
- Please ensure suitable ‘grounding’ at all times.
